Interior or exterior  
Showers/kitchens & laundries

#### Technical Properties

Appearance	Yellow liquid
Solubility in water	Complete
Boiling point	100°C
Specific gravity	App. 1.15
Flash point	Not measured
Flamm. Limit LEL	Not flammable
Odour	Strong chlorine odour
Dilution	Supplied ready to use

UN 1791 (Corrosive liquids NOS)  
Hypochlorite Solution  
Hazchem 2X  
DG Class 8  
Poison S5

**Application**

Apply cleaner 303 to the surface with a nylon brush/trigger spray or sponge. Allow the solution to stay in contact with the mould or stain until it disappears, usually for about 10 minutes then wash off with clean water. Repeat if necessary.

Note: Determine the suitability of Cleaner 303 for a particular application by trialling it's effect on an inconspicuous area. Cleaner 303 may corrode some soft metals and discolour or bleach certain substrates such as carpets/furnishings/clothing or fabric.

Cleaner 303 should be applied uniformly to the surface to be treated. Use a jet sprayer not a fine mist.

**Handling & Use**

Wear rubber gloves/eye protection/protective clothing. Do not allow spillage onto clothing. Rinse immediately. Use in a well ventilated area.

Consult Material safety Data Sheet and read label on container before use.

**Shelf Life**

Indefinite when stored in unopened containers in a cool place.

**Packaging**

Non-returnable plastic 20/5/1 litre containers
