

### Cleaner 301

**Micon cleaner 301 is an extremely concentrated heavy duty degreaser/detergent. It has been formulated to give safe and effective removal of grease and atmospheric grime from most surfaces including, concrete/clay, natural stone, metal, plaster and painted surfaces.**

#### Advantages

Dilute with water to suite specific application.

Effective in the removal of difficult stains such as:

Grease and oil marks, food stains, atmospheric grime, and general soiling.

Can be used with pressure washers, steam cleaners, or automatic scrubbing machines.

#### Use

Removal of:

Grease and oil

Atmospheric grime

Food stains

General soiling

#### Technical Properties

Appearance	Clear, green liquid with mint fragrance
Solubility in water	Complete
Boiling point	App. 100°C
Per cent volatiles	App. 80-85%
Specific gravity	App. 1.04
Flash point	Non flammable
Odour	Acidic
Dilution	With clean water

**Application**

Slightly wet the surface to be cleaned with water prior to application of Cleaner 301

Apply cleaner to the surface with a stiff nylon broom or brush. For use with power washers consult user's guide for specific machine. Allow the solution to stay on the surface for 2-3 minutes and wash off with clean water. Repeat if necessary.

Do not allow Cleaner 301 to dry on surface.

Note: Determine the suitability of Cleaner 301 for a particular application by trialling its effect on an inconspicuous area.

**Handling & Use**

Wear rubber gloves/eye protection/protective clothing. Do not allow spillage onto clothing. Rinse immediately.

Consult Material safety Data Sheet and read label on container before use.

**Shelf Life**

Indefinite when stored in unopened containers in a cool place.

**Packaging**

Non-returnable plastic 20/5/1 litre containers
