

Cleaner 302

Micon cleaner 302 is an acid based cleaner for the removal of most stains that appear on the surface of clay bricks and masonry paving.

Advantages

Single pack ready to use solution.

Effective in the removal of difficult stains such as:

Tyre marks, atmospheric grime, light mortar deposits and food stains.

Use

Removal of:

Tyre marks

Atmospheric grime

Mortar & mortar pigments

Food stains

Technical Properties

Appearance	Colourless liquid
Solubility in water	Miscible in all proportions
Boiling point	Above 100°C
Per cent volatiles	App. 84%
Specific gravity	App. 1.04
Flash point	Non flammable
Odour	Acidic
Dilution	1:5 with clean water

UN 1760 (Corrosive liquids NOS)

Hazchem 2R

DG Class 8

Poison S6

Application

Slightly wet the surface to be cleaned with water prior to application of Cleaner 302

Apply cleaner to the surface with a stiff broom or brush. Allow the solution to stay on the surface for 2-3 minutes and wash off with clean water. Repeat if necessary.

Do not allow Cleaner 302 to dry on surface.

Note: Determine the suitability of Cleaner 302 for a particular application by trialling it's effect on an inconspicuous area.

Cleaner 302 is designed to clean unglazed materials. Do not allow to come into contact with polished stone/glass or metals.

Handling & Use

Wear rubber gloves/eye protection/protective clothing. Do not allow spillage onto clothing. Rinse immediately.

Consult Material safety Data Sheet and read label on container before use.

Shelf Life

Indefinite when stored in unopened containers in a cool place.

Packaging

Non-returnable plastic 20/5/1 litre containers
